Findlay City Schools

December 30, 2008

Members of the Board of Education and Residents of the Findlay City School District:

We are pleased to submit to you the Comprehensive Annual Financial Report of the Findlay City School District. This Comprehensive Annual Financial Report (CAFR) provides full disclosure of the financial operation of the Findlay City School District (the "District") for the fiscal year ended June 30, 2008. The CAFR, which includes an opinion from the Independent Public Accounting Firm that performed the District's audit, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. This CAFR will provide the taxpayers of the District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs. Copies will be made available to the Chamber of Commerce, major taxpayers, the Findlay Public Library, financial rating services, and other interested parties.

The Comprehensive Annual Financial Report is presented in three sections:

1. The Introductory Section, which is unaudited, includes a Table of Contents, this Letter of Transmittal, a List of Principal Officials, an Organizational Chart, the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for the 2007 CAFR, and the Certificate of Excellence in Financial Reporting from the Association of School Business Officials International (ASBO) for the 2007 CAFR.
2. The Financial Section, which includes the Independent Auditor's Report, the Management's Discussion and Analysis, the Basic Financial Statements, the Notes to the Basic Financial Statements, and the Combining Statements and Individual Fund Schedules.
3. The Statistical Section, which is unaudited, includes various tables which reflect financial and demographic information, financial trends, and the fiscal capacity of the District.

SCHOOL DISTRICT ORGANIZATION

Findlay City School District is one of 896 public school districts and community schools in the State of Ohio and one of eight school districts in Hancock County. It provides education to approximately 5,992 students in kindergarten through grade 12. The District is located in northwestern Ohio, approximately 65 miles south of the City of Toledo. 98 percent of the District's territory is within the City of Findlay, the county seat. The District serves an area of approximately 37 square miles.

Statutorily, the District operates under standards prescribed by the Ohio State Board of Education as provided in Division (D) of Section 3301.47 and Section 110.01 of the Ohio Revised Code, to provide educational services authorized and mandated by State or Federal agencies.

The Board of Education serves as the taxing authority, contracting body, and policy maker for the District. The Board adopts the annual operating budget and approves all expenditures of District monies. The superintendent is the chief administrative officer of the District, responsible for both education and support operations. The treasurer is the chief financial officer of the District, responsible for maintaining records of all financial matters, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing of funds as specified by Ohio law.

THE REPORTING ENTITY

The District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity", and as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments, and organizations making up the District (the primary government) and its potential component units.

Excluded from the reporting entity, because they are fiscally independent of the District, are the City of Findlay, the Parent-Teacher Association, and the Booster Clubs. The Northwest Ohio Area Computer Services Cooperative (NOACSC) is reported as a jointly governed organization.

ECONOMIC OUTLOOK

With a total assessed valuation of \$823,046,370 and a tax rate of \$60.75 per \$1,000.00 of assessed valuation, the District has a sound financial base. A sexennial reappraisal of all real property was completed in 2004. Subsequently, property tax revenue increased by approximately eight percent. However, property tax revenue is beginning to decrease and will continue to decrease in the future as the State of Ohio phases out tangible personal property taxes. Also, many property owners suffered damage from the August 2007 flood and another large flood that hit in February 2008. The District is concerned with the ability and willingness of its taxpayers to support future levies given the financial hardships that they may be experiencing as a result of past and future flooding.

The District's financial condition continues to be an area of focus for the Board of Education and Administration. In litigation now referred to as the "DeRolph Case", the Perry County Court of Common Pleas in 1995 declared the State's method of funding school districts to be unconstitutional. On March 24, 1997, the Ohio Supreme Court upheld most of the Perry County Court ruling by declaring certain portions of the Ohio school funding plan unconstitutional. The Ohio Supreme Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's school foundation program, which provides significant amounts of monetary support to the District.

Since the Ohio Supreme Court ruling, numerous pieces of legislation have been passed by the State legislature in an attempt to address the issues identified by the Courts. The Perry County Court of Common Pleas has reviewed the new laws and, in a decision issued on February 26, 1999, determined that they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Supreme Court. The Ohio Supreme Court upheld their initial ruling in May, 2000, and after further modifications to the funding plan by the legislature, the Ohio Supreme Court issued an opinion on September 6, 2001 that listed areas which required further modification if the funding plan was to be considered constitutional. On September 17, 2001, the State of Ohio petitioned the Ohio Supreme Court to reconsider and clarify its decision. On November 2, 2001, the Ohio Supreme Court granted this request. On December 1, 2002, the Ohio Supreme Court again ruled that the State's school foundation program is unconstitutional. School districts will continue to operate under the laws that the Perry County Court of Common Pleas declared unconstitutional.

As of the date of these financial statements, the District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

Total budgeted revenues for fiscal year 2009 will remain similar to the previous year with the exception of about \$2 million which will be returned to the general fund to cover last year's advance of funds that were used to cover flood expenditures until FEMA and other flood aid money was received. Although negotiated raises of three percent (3%) and estimated health care increases of twelve percent (12%) are budgeted in fiscal year 2009, the total expenditures for fiscal year 2009 are expected to be about the same as fiscal year 2008. This is because fiscal year 2008 was when the general fund made a one time expenditure of about \$2 million to advance funds needed to cover flood expenditures until FEMA and other flood aid arrived.

Ohio school districts cannot generate significant additional revenue from taxes except by the vote of the people. On May 8, 2007, the voters elected to replace an expiring 4.9 mill levy. Voters will need to renew or replace that levy before the end of calendar year 2012 when collections end. On November 4, 2008, the voters replaced a 5.9 mill levy for which collections will expire in December 2014. Resources of the general fund will be impacted in the future by the struggling economy and past Ohio tax reforms including the eventual elimination of tangible personal property taxes, as well as increasing health care costs, and the need to renovate and/or combine the three middle schools, which were built in 1925. The District also needs to create a facility that will unite its vocational programs instead of housing it in three different locations.

MAJOR INITIATIVES

The District focuses on the four strategies approved by the Board of Education as part of its Strategic Plan, which was redeveloped in 2005:

- Strategy 1: To continually align our curriculum with State standards and effectively utilize data and the best instructional practices to help every student achieve a proficient or higher rating on all State of Ohio assessments.
- Strategy 2: To develop and implement plans to ensure sufficient funding for current and future operations, programs, and facilities.
- Strategy 3: To nurture and foster trusting relationships among all members of the school and community partnership in order to improve the communication, understanding, and commitment necessary to achieve the mission and objectives.
- Strategy 4: To design a system to assist students in setting, achieving, and assessing personally challenging educational goals related to their unique talents, purpose, and dreams.

The District continues to seek solutions to its facility needs. The passage of a 2.5 mill permanent improvement levy in May 2006 has helped to alleviate many facility needs as well as the relocation of Washington intermediate school from a 1915 building to a 1969 building. However, the three middle schools need serious renovations, especially after recent flooding. The District also hopes to eventually consolidate the south, north, and east campuses of Millstream Career and Technology Center into one location. The District has been approved to participate in the Ohio School Facilities Commission's (OSFC) Exceptional Needs Program (ENP). The ENP helps the District address specific facility needs within the District rather than the OSFC's usual practice of addressing all of the buildings within a district. Funding will be provided for construction at the OSFC's specifications and the District must provide a local match based on the District's property values. In the case of our District, the local required match is currently sixty eight percent (68%), while the OSFC will provide thirty two percent (32%). In order to provide that much funding for new buildings, the District will have to put a bond levy on the ballot and pass it in 2009. The District will actively seek community input as to how to proceed by holding public forums and has created a facilities committee with community stakeholders.

RELEVANT FINANCIAL POLICIES

The District's primary management tool for monitoring its fiscal health is the Five-Year Forecast, which is a document that focuses on the general fund's past three years of actual expenditures, the current fiscal year, and the following four fiscal years. The District has set targets for certain financial ratios based on this document. A key ratio is the District's "true days cash" ratio. True days cash is the concept that calculates how many days the District can operate with the amount of cash available at the end of the year. The calculation takes the available cash balance at the end of the year and divides it by the year's average daily operating expense. The District has set an immediate target to maintain forty true days cash with the expectation for that figure to gradually grow. This ratio is used when negotiating future labor contracts and in determining the need for future levies.

FINANCIAL INFORMATION

Internal Accounting and Budgetary Control. The District's accounting system is organized on a fund basis. Each fund is a distinct self-balancing accounting entity. Governmental funds are presented on the modified accrual basis, whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. Proprietary and fiduciary funds are presented on the accrual basis, whereby revenues are recognized when earned and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from the implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended official certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund and function level of expenditures in the general fund and at the fund level of expenditures for all other funds. All purchase order requests must be approved by the Superintendent or his designee and certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation, plus any additional appropriations made to date. In addition to interim financial statements, each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible.

As an additional safeguard, all employees are covered by a blanket bond, and certain individuals in policy-making roles are covered by a separate, higher limit bond.

The basis of accounting and the funds utilized by the District are fully described in Note 2 to the Basic Financial Statements. Additional information on the District's budgetary accounting can also be found in Note 2 to the Basic Financial Statements.

FINANCIAL HIGHLIGHTS

Management is responsible for preparing a Management's Discussion and Analysis of the District. This discussion follows this letter of transmittal, providing an assessment of the District's finances for fiscal 2008 and the outlook for the future. Because that discussion focuses on major funds, the financial highlights provided in this letter focus on certain nonmajor funds of the District.

Internal Service Fund - The only internal service fund of the District is the Employee Benefits Self Insurance Fund. This internal service fund had net assets of \$537,774 at June 30, 2008, compared to net assets of \$696,970 at June 30, 2007, reflecting a decrease in net assets of \$159,196.

Fiduciary Funds - The fiduciary funds account for assets held by the District in a trustee capacity, or as an agent, for other funds, governments, organizations, or individuals. The District maintains a private-purpose trust fund and an agency fund. The private-purpose trust fund had net assets of \$43,759 at June 30, 2008. The agency fund had assets of \$136,571 at June 30, 2008.

LONG-TERM FINANCIAL PLANNING

The District will continue to implement new courses of study in an ongoing effort to meet, and exceed, the national and state standards to affect student outcomes in the pursuit of the excellence rating on the Ohio Report Card. Part of this effort is the adoption of a more rigorous high school program and the implementation of all day every day kindergarten. However, due to anticipated future budget restraints, the District will not offer courses without sufficient demand and expects that class sizes will need to increase throughout the District.

Full implementation of the overall Strategic Plan will help keep the District focused on student learning through high-quality instruction, efficiency and effectiveness of district operations and vibrant school-community partnerships.

Ongoing support through permanent improvement tax dollars and the Ohio School Facilities Commission will help ensure the viability of the physical plants within the District. With the full implementation of these plans and directives, the District will remain poised to retain the full academic excellence and fiscal accountability standards that the community has come to expect of the Findlay City School District.

USE OF THIS REPORT

This report is published to provide to the Board of Education, as well as our citizens and other interested persons, detailed information concerning the financial condition of the District, with particular emphasis placed on the utilization of resources during the past fiscal year. It is also intended that this report will serve as a guide in formulating policies and in conducting the District's future day-to-day activities. We believe the information, as presented, is accurate in all material aspects, that it is presented in a manner designed to fairly set forth the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included.

In today's bond market environment, it is increasingly important that public agencies prepare soundly conceived annual financial reports which are independently audited by a qualified firm or agency. It has become almost required practice that such reports be prepared in accordance with GAAP, and the major bond rating agencies review the data presented in such reports before determining a public agency's bond rating.

INDEPENDENT AUDIT

Provisions of State statute require the District's Basic Financial Statements to be subjected to an annual examination by an independent auditor. Those provisions have been satisfied and the opinion of the District's independent auditors is included herein. The single audit report is not included in this CAFR, but is located in a separate report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio. The District adopted and has been in conformance with that system effective with its annual financial report for the 1979 fiscal year.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Findlay City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2007. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The District has received this award for the past seventeen (17) years. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The District has also received a Certificate of Excellence in Financial Reporting in School Districts from the Association of School Business Officials International (ASBO) for the District's CAFR for the fiscal year ended June 30, 2007. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. The District has received this award for the past seventeen (17) years. We believe that our current report continues to conform to the Certificate of Excellence program requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

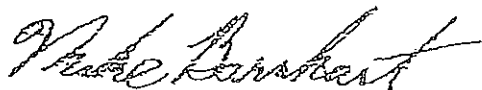

ACKNOWLEDGMENTS

The publication of this report significantly increases the accountability of the District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office and various administrators and employees of the District. Assistance of the County Auditor's office staff and other outside agencies made possible the fair presentation of statistical data.

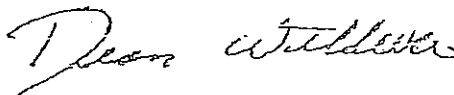

Special appreciation is expressed to Mr. Alexander J. Fait, of Julian & Grube, Inc., who compiled this report in compliance with GAO guidance, and to the auditors of Julian & Grube, Inc., who audited this report.

Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project, and to the taxpayers and voters of the District, who have continued to show their faith in education and in the Findlay City School District.

Respectfully,

Independent Auditor's Report

Board of Education
Findlay City School District
1219 W. Main Cross, Suite 101
Findlay, Ohio 45840-3377

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, its major fund and the aggregate remaining fund information of Findlay City School District, Hancock County, Ohio, as of and for the fiscal year ended June 30, 2008, which collectively comprise Findlay City School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Findlay City School District's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Findlay Digital Academy, Findlay City School District's only discretely presented component unit. Findlay Digital Academy financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for Findlay City School District is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

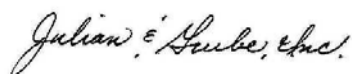

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, its major fund, and the aggregate remaining fund information of Findlay City School District, Hancock County, Ohio, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

Independent Auditor's Report
Findlay City School District

In accordance with *Government Auditing Standards*, we have also issued our report dated December 26, 2008 on our consideration of Findlay City School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Findlay City School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements of Findlay City School District. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008**

The management's discussion and analysis of the Findlay City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2008. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, basic financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2008 are as follows:

- In total, net assets of governmental activities increased \$4,652,671 which represents a 29.82% increase from 2007.
- General revenues accounted for \$54,971,730 in revenue or 81.67% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$12,340,892 or 18.33% of total revenues of \$67,312,622.
- The District had \$62,659,951 in expenses related to governmental activities; only \$12,340,892 of these expenses was offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$54,971,730 were adequate to provide for these programs.
- The District's only major governmental fund is the general fund. The general fund had \$57,200,812 in revenues and \$56,498,385 in expenditures and other financing uses. During fiscal 2008, the general fund's fund balance increased \$701,753 from a balance of \$5,085,217 to a balance of \$5,786,970.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant fund with all other nonmajor funds presented in total in one column. In the case of the District, the general fund is the most significant fund, and the only governmental fund reported as a major fund.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2008?" The *Statement of Net Assets* and the *Statement of Activities* answer this question. These statements include *all assets, liabilities, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the Governmental Activities include the District's programs and services, including instruction, support services, operations and maintenance, non-instructional services, pupil transportation, operations of services, extracurricular activities, interest on fiscal charges, and food service operations.

The District's statement of net assets and statement of activities can be found on pages F13-F14 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental fund begins on page F9. Fund financial reports provide detailed information about the District's major fund. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant fund. The District's only major governmental fund is the general fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* than can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statements can be found on pages F15-F19 of this report.

Proprietary Funds

The District maintains a proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for self-insurance. The basic proprietary fund financial statements can be found on pages F20-F22 of this report.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals. These activities are reported in an agency fund. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets on pages F23 and F24. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages F25-F58 of this report.

The District as a Whole

The Statement of Net Assets provides the perspective of the District as a whole.

The table below provides a summary of the District's net assets for 2008 and 2007.

	Net Assets	
	Governmental Activities 2008	Governmental Activities 2007

Total net assets	<u>\$ 20,254,344</u>	<u>\$ 15,601,673</u>

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2008, the District's assets exceeded liabilities by \$20,254,344.

At year-end, capital assets represented 21.12% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2008, were \$11,666,148. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net assets, \$2,789,266, represents resources that are subject to external restriction on how they may be used.

Governmental Activities

Net assets of the District's governmental activities increased \$4,652,671. This increase in net assets is primarily due to an increase in property tax revenues, which is the result of a sexennial reappraisal of all real property that was completed in 2006 and took effect with the 2007 valuation. Total governmental expenses of \$62,659,951 were offset by program revenues of \$12,340,892 and general revenues of \$54,971,730. Program revenues supported 19.70% of the total governmental expenses.

The primary sources of revenue for governmental activities are derived from property taxes, and grants and entitlements. These revenue sources represent 80.16% of total governmental revenue. Real estate property is reappraised every six years.

The largest expense of the District is for instructional programs. Instruction expenses totaled \$38,758,549 or 61.86% of total governmental expenses for fiscal 2008.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008**

The dependence upon tax and other general revenues for governmental activities is apparent, 80.17% of instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 80.30%. The District's taxpayers, as a whole, are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2008 and 2007.

Governmental Activities - General and Program Revenues

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 15) reported a combined fund balance of \$8,718,553, which is higher than last year's total of \$7,222,564. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2008 and 2007.

	Fund Balance <u>June 30, 2008</u>	Fund Balance <u>June 30, 2007</u>	<u>Increase</u>

Total	<u>\$ 8,718,553</u>	<u>\$ 7,222,564</u>	<u>\$ 1,495,989</u>

General Fund

The District's general fund balance increased \$701,753. The increase in fund balance can be attributed to a 2.42% increase in revenues versus a 9.89% increase in expenditures. Revenues exceeded expenditures by \$1,367,427 in fiscal 2008, for two main reasons. The first reason is that the District had to increase expenditures from fiscal 2007 to fiscal 2008, primarily due to rising wage and health benefit costs for the District. The second reason is that the District was able to increase revenues from fiscal 2007 to fiscal 2008, primarily due to an increase in intergovernmental revenues. The increase in intergovernmental revenues is the result of the District receiving governmental reimbursements for the loss of tangible personal property tax revenue (see Note 6). The table that follows assists in illustrating the financial activities and fund balance of the general fund.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2008, the District amended its general fund budget numerous times. For the general fund, final budgeted revenues and other financing sources were \$56,841,782, which was higher than the original budget estimate of \$52,100,260. Actual revenues and other financing sources for fiscal 2008 was \$57,374,849. This represents a \$533,067 increase over final budgeted revenues.

General fund original appropriations (appropriated expenditures plus other financing uses) of \$59,956,627 were increased to \$61,397,628 in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2008 totaled \$58,471,740, which was \$2,925,888 less than the final budget appropriations.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2008, the District had \$13,985,134 invested in land, land improvements, buildings and improvements, furniture and equipment and vehicles, net of accumulated depreciation. This entire amount is reported in governmental activities.

The following table shows fiscal 2008 balances compared to 2007:

**Capital Assets at June 30
(Net of Depreciation)**

	Governmental Activities	
	2008	2007
Land	\$ 416,459	\$ 416,459
Land improvements	342,671	299,982
Building and improvements	10,161,543	8,574,033

Vehicles	1,202,164	1,132,511
Total	\$ 13,985,134	\$ 11,508,844

Total additions to capital assets for 2008 were \$3,694,190. The overall increase in capital assets of \$2,476,290 is primarily due to additions exceeding the recording of \$1,168,776 in depreciation expense and disposals of \$49,124 (net of accumulated depreciation) for fiscal 2008.

See Note 8 to the basic financial statements for additional information on the District's capital assets.

Debt Administration

At June 30, 2008, the District had \$2,318,986 in asbestos removal loans and capital lease obligations outstanding. Of this total, \$388,149 is due within one year and \$1,930,837 is due in greater than one year. The following table summarizes the loans and lease obligations outstanding.

Outstanding Debt, at Year End

	Governmental Activities <u>2008</u>	Governmental Activities <u>2007</u>

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008**

Current Financial Related Activities

The District has carefully managed its finances in order to maximize the dollars spent on educating students; however, unpredictable costs and limited revenue streams continue to make it difficult. The biggest challenge for the district is the uncertainty of the economy and the impact it will have on revenues, especially the revenue that comes from the State of Ohio, which amounts to nearly one-third of the District's general fund. The District's ongoing challenge of addressing its facility needs was heightened by two major floods that hit the Findlay community in August 2007 and February 2008. The District suffered major damage to its administrative offices, which were located in the basement of Central Middle School, as well as damage to a lesser extent at seven (7) other buildings. The District has sought reimbursement from FEMA and the State of Ohio for over \$2.5 million in damages and expects to receive enough financial support to cover all but \$600,000 of the costs of the flood.

The passage of a 2.5 mill permanent improvement levy in May 2006 has helped to alleviate many facility needs. The District hopes to eventually consolidate the south, north, and east campuses of Millstream Career and Technology Center into one location. The District also hopes to convert its three (3) small middle schools into two (2) larger, more efficient, newly constructed middle schools. Funding for these building consolidations has been pursued through the Ohio School Facilities Committee (OSFC) under their Exceptional Needs Program (ENP) and Emergency Assistance Program (EAP). The ENP helps school districts address specific facility needs within a district rather than the OSFC's usual practice of addressing all of the buildings within a district. The District has been approved for participation in this program. Funding will be provided for construction based on the OSFC's specifications where the school district must provide a local match based on the district's property values. In the case of Findlay City Schools, the local required match is sixty eight percent (68%) while OSFC will provide thirty-two percent (32%). In order to provide that much funding for new buildings, the District will have to put a bond levy on the ballot and pass it before December 2009.

In November 2008, the District replaced a five-year 5.9 mill levy that is scheduled to expire at the end of calendar year 2009 with another five-year 5.9 mill levy where collections will begin in calendar year 2010. This levy will retain present collections of \$4.1 million in addition to another \$0.6 million.

In order to meet past challenges, the District developed and implemented a fiscal health plan for 2006 through 2010. The plan includes strategies for diversifying revenue sources and reducing expenditures. The District will continue to implement and update the plan as it remains fiscally vigilant and works through the present national economic recession. The District has committed itself to educational and financial excellence and the District's Board and management team will continue to work with the community it serves to provide the best education and the best resources possible to its students, teachers, employees and community.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

Net change in fund balances - total governmental funds	\$	1,503,774
 <i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$3,694,190) exceeds depreciation expense (\$1,168,776) in the current period.		2,525,414
The net effect of various miscellaneous transactions involving capital assets (i.e., disposals, sales, trade-ins, and donations) is to decrease net assets.		(49,124)
Governmental funds report expenditures for inventory when purchased. However, in the statement of activities they are reported as an expense when consumed.		(7,785)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		344,171
Repayment of loan and capital lease obligation principal are expenditures in the governmental funds, but the repayments reduce long-term liabilities on the statement of net assets.		959,328
In the statement of activities, interest is accrued on outstanding loans, whereas in governmental funds, an interest expenditure is reported when due.		3,631
Some expenses reported in the statement of activities, such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(467,542)
The internal service fund used by management to charge the costs of health and dental insurance to individual funds is not reported in the statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net loss of the internal service fund is allocated among the governmental activities.		(159,196)
Change in net assets of governmental activities	\$	4,652,671

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008**

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Findlay City School District (the "District") is located in Hancock County in northwest Ohio. The District is located in a prosperous community, which includes all of the City of Findlay.

The District operates under a locally elected, five-member Board and provides educational services as authorized by its charter or further mandated by State and/or federal agencies. The Board controls the District's fourteen instructional facilities and one support facility staffed by 488 certified teaching personnel, 365 classified support personnel, and 51 administrators.

The District is organized under Sections 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the District is vested in the Board of Education, consisting of five members elected at large for staggered four year terms.

The District ranks as the 48th largest (among 896 public school districts and community schools) in terms of total enrollment in the State, and the largest in Hancock County. It currently operates 9 elementary schools, 3 middle schools, 1 high school, and a vocational center, to provide services to approximately 5,992 students in grades K-12 and various community groups.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities and to its proprietary fund provided they do not conflict with or contradict GASB pronouncements. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity", and as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based upon the application of these criteria, the District has one component unit. The basic financial statements of the reporting entity include those of the District (the primary government) and the component unit. The following organizations are described due to their relationship to the District:

DISCRETELY PRESENTED COMPONENT UNIT

Findlay Digital Academy

The Findlay Digital Academy (the "Academy") is a Conversion Community School established pursuant to Ohio Revised Code, Chapter 3314. The Academy is sponsored by the District to serve ninth through twelfth grade students living in the District. The Academy's mission is to enhance and facilitate student learning by combining state-of-the-art digital curriculum with access to local school resources to complement that instruction and prepare students to become lifelong learners and productive citizens. The Academy is governed by a seven-member Board of Directors, the majority of which are public officials or public sector employees who have a professional interest in furthering the establishment of the Academy, the District's Superintendent, who serves as the non-voting Board President, and can also include one or more parents of enrolled students and community civic leaders. The District's Treasurer serves as a non-voting ex-officio member of the Board. The Academy issues a publicly available, stand-alone financial report that includes basic financial statements and supplementary information. This report may be obtained by writing to Michael Barnhart, Treasurer, Findlay City School District, at 1219 W. Main Cross, Findlay, Ohio 45840.

The Academy is included as a component unit of the District because the District appoints the Academy's Board of Directors. Therefore, the District is able to significantly influence the programs or services performed or provided by the organization. In addition, should the Academy discontinue operations for any reason, the District is legally entitled to the Academy's resources. Based on the District's relationship with the Academy and due to the resources and services provided by the District to the Academy, it would be misleading to exclude the Academy from the District's financial reporting entity and as such, the Academy warrants inclusion in the District's financial statements as a discretely presented component unit.

JOINTLY GOVERNED ORGANIZATIONS

Northwest Ohio Area Computer Services Cooperative

The District is a participant in the Northwest Ohio Area Computer Services Cooperative (NOACSC) which is a computer consortium. NOACSC is an association of public school districts within the boundaries of Allen, Hancock, Paulding, Putnam, and Van Wert counties, and the cities of St. Marys and Wapakoneta. The organization was formed for the purpose of applying modern technology (with the aid of computers and other electronic equipment) to administrative and instructional functions among member school districts.

The Governing Board of NOACSC consists of two representatives from each county elected by majority vote of all charter member school districts within each county plus one representative from the fiscal agent school district. Financial information can be obtained from Ray Burden, who serves as Director, at 645 South Main Street, Lima, Ohio 45804.

PUBLIC ENTITY RISK POOLS

The District participates in the Bureau of Workers' Compensation Retrospective Rating Plan. See Note 11.B. for further details on this alternative rating plan.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major governmental fund:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other governmental funds of the District are used to account for (a) financial resources to be used for the acquisition, construction, or improvement of capital facilities; (b) activity relating to the repayment of general long-term debt principal, interest and related costs; (c) grants and other resources whose use is restricted to a particular purpose; and (d) food service and uniform school supplies operations.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no enterprise funds. The following is a description of the District's internal service fund:

Internal Service Fund - The internal service fund is used to account for the financing of services provided by one fund or department to other funds or departments of the District, or to other governments, on a cost-reimbursement basis. The only internal service fund of the District accounts for a self-insurance program which provides insurance benefits to employees.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The District's fiduciary funds include a private-purpose trust fund and an agency fund. Trust funds account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's programs. The District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's only agency fund accounts for student activities.

C. Measurement Focus

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reported on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of fund net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service fund are charges for sales and services. Operating expenses for internal service funds include the cost of sales and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The private-purpose trust fund is reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6).

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Unearned Revenue and Deferred Revenue - Unearned revenue and deferred revenue arise when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2008, but which were levied to finance fiscal year 2009 operations, and other revenues received in advance of the fiscal year for which they are intended to finance, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met and delinquent property taxes due at June 30, 2008 are recorded as deferred revenue.

**FINDLAY CITY SCHOOL DISTRICT
HANCOCK COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the financial statements as an expense with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the fund and function level for the general fund and at the fund level for all other funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education.

Tax Budget:

A budget of estimated cash receipts is submitted to the County Auditor, as Secretary of the County Budget Commission, by January 20 of each year, for the period July 1 to June 30 of the following year.

Estimated Resources:

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commissions' certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the original and final amended certificates issued during the fiscal year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter a function level in the general fund or the fund level for all other funds must be approved by the Board of Education.

The Board may pass supplemental fund appropriations as long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budget amounts reflect the first appropriation for that fund which covered the entire fiscal year, including amounts automatically carried over from prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Cash disbursements may not legally exceed budgeted appropriations at the legal level of control.

F. Cash and Investments

To improve cash management, cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the basic financial statements.

During fiscal year 2008, investments were limited to nonnegotiable certificates of deposits, federal agency securities, a U.S. treasury money market mutual fund, and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2008. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2008.

**FINDLAY CITY SCHOOL DISTRICT
HANCOCK COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund or the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2008 amounted to \$535,581, which includes \$126,387 assigned from other District funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at year-end is provided in Note 4.

G. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis. Inventories are accounted for using the purchase method on the governmental fund financial statements and using the consumption method on the government-wide financial statements.

Inventory consists of general supplies, purchased food and donated food.

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and deletions during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$2,500. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Land improvements	20 years
Buildings and improvements	25 - 50 years
Equipment and furniture	5 - 20 years
Vehicles	5 - 10 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables” and “due from/to other funds”. These amounts are eliminated in the governmental activities column on the statement of net assets.

J. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences”, a liability for vacation leave is accrued if a) the employees’ rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) payments. The liability is an estimate based on the District’s past experience of making termination payments.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2008, and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account “compensated absences payable” in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Loans are recognized as a liability on the fund financial statements when due.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, materials and supplies inventory, tax revenue unavailable for appropriation, prepayments, school bus purchases, and scholarships. The reserve for property taxes unavailable for appropriation represents taxes recognized as revenue under GAAP, but not available for appropriation under State statute.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents the amount restricted by State statute for school bus purchases.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed.

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

P. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets include the amount required by State statute to be set-aside for school bus purchases. See Note 16 for details.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Q. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Interfund services provided and used are not eliminated in the government-wide statement of activities. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in the proprietary fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

R. Parochial Schools

St. Michael's Elementary, Primary Christian School and Heritage Christian School are all operated within the District boundaries. Current state legislation provides funding to state chartered parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial school. The receipt and expenditure of these state monies by the District are reflected in a nonmajor governmental fund for financial reporting purposes.

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2008.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2008, the District has implemented GASB Statement No. 45, "Accounting and Financial Reporting for Postemployment Benefits Other than Pensions", GASB Statement No. 48, "Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues", and GASB Statement No. 50, "Pension Disclosures".

GASB Statement No. 45 establishes uniform standards of financial reporting for other postemployment benefits and increases the usefulness and improves the faithfulness of representations in the financial reports. The implementation of GASB Statement No. 45 did not have an effect on the financial statements of the District; however, certain disclosures related to postemployment benefits (see Note 13) have been modified to conform to the new reporting requirements.

GASB Statement No. 48 establishes criteria to ascertain whether certain transactions should be regarded as sales or as collateralized borrowings, as well as disclosure requirements for future revenues that are pledged and sold. The implementation of GASB Statement No. 48 did not have an effect on the financial statements of the District.

GASB Statement No. 50 establishes standards that more closely align the financial reporting requirements for pensions with those of other postemployment benefits. The implementation of GASB Statement No. 50 did not have an effect on the financial statements of the District.

B. Deficit Fund Balances

Fund balances at June 30, 2008 included the following individual fund deficits:

<u>Nonmajor governmental funds</u>	<u>Deficit</u>
Private purpose special revenue	\$ 97,539
Special enterprise	11,860
Poverty aid	19,744
Title I disadvantaged children	117,532
Drug free school grant	7,335
Improving teacher quality	1,253

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. These deficit balances are the result of adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasury Asset Reserve of Ohio (STAR Ohio) investment pool;
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time, and;
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits with Financial Institutions

At June 30, 2008, the carrying amount of all District deposits was \$4,535,928. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2008, \$3,366,000 of the District's bank balance of \$5,223,209 was covered by the Federal Deposit Insurance Corporation, while \$1,857,209 was exposed to custodial risk as discussed below.

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

B. Investments

As of June 30, 2008, the District had the following investments and maturities:

<u>Investment</u>	<u>Fair Value</u>	<u>Investment Maturities</u>				
		<u>6 months or less</u>	<u>7 to 12 months</u>	<u>13 to 18 months</u>	<u>19 to 24 months</u>	<u>More than 24 months</u>
FFCB	\$ 296,532	\$ -	\$ -	\$ -	\$ -	\$ 296,532
FHLB	3,292,008	-	252,658	-	-	3,039,350
FHLMC	2,651,295	-	-	-	-	2,651,295
FNMA	4,666,754	-	-	-	1,521,921	3,144,833
U.S. Treasury fund	47,045	47,045	-	-	-	-
STAR Ohio	528,938	528,938	-	-	-	-
Total	\$ 11,482,572	\$ 575,983	\$ 252,658	\$ -	\$ 1,521,921	\$ 9,132,010

The weighted average maturity of investments is 3.58 years.

Interest Rate Risk: Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The District's investment policy addresses interest rate risk by requiring the consideration of cash flow requirements and market conditions in determining the term of an investment, and limiting investment portfolio maturities to five years or less.

Credit Risk: The District's investments, except for STAR Ohio, were rated AAA and Aaa by Standard & Poor's and Moody's Investor Services, respectively. Standard & Poor's has assigned STAR Ohio an AAAM money market rating. The District's investment policy does not specifically address credit risk beyond the adherence to Chapter 135 of the Ohio Revised Code, of which all relevant provisions are described previously in this note disclosure (Note 4).

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent but not in the District's name. State statute prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee. The District's investment policy does not specifically address custodial credit risk beyond the adherence to this requirement.

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Concentration of Credit Risk: The District's investment policy addresses concentration of credit risk by requiring investments to be diversified in order to reduce the risk of loss resulting from the over concentration of assets in a specific type of security, the erosion of market value, or by default. However, the District's investment policy does not place any limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2008:

<u>Investment</u>	<u>Fair Value</u>	<u>Percent of Total</u>
FFCB	\$ 296,532	2.58

<u>Transfers from general fund to:</u>	<u>Amount</u>
Nonmajor governmental funds	\$ 665,000

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16. Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar year 2008 represents collections of calendar year 2007 taxes. Real property taxes received in calendar year 2008 were levied after April 1, 2007, on the assessed value listed as of January 1, 2007, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2008 represents collections of calendar year 2007 taxes. Public utility real and tangible personal property taxes received in calendar year 2008 became a lien December 31, 2006, were levied after April 1, 2007 and are collected in 2008 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar year 2008 (other than public utility property) represents the collection of 2008 taxes. Tangible personal property taxes received in calendar year 2008 were levied after April 1, 2007, on the value as of December 31, 2007. Tangible personal property tax is being phased out. For 2007, tangible personal property was assessed at 12.50% for property, including inventory. This percentage was reduced to 6.25% for 2008 and will be reduced to zero for 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

NOTE 6 - PROPERTY TAXES - (Continued)

House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phases out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property will be eliminated by calendar year 2009, and the tax on telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. The bill replaces the revenue lost by the District due to the phasing out of the tax. In calendar years 2007-2010, the District will be fully reimbursed for the lost revenue. In calendar years 2011-2017, the reimbursements will be phased out.

The District receives property taxes from Hancock County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2008, are available to finance fiscal year 2008 operations. The amount available as an advance at June 30, 2008 was \$1,375,000 in the general fund and \$101,000 in the permanent improvement capital projects fund (a nonmajor governmental fund). These amounts are reported as revenue. The amount available for advance at June 30, 2007 was \$1,220,000 in the general fund and \$90,000 in the permanent improvement capital projects fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary depending upon when the tax bills are sent by the County Auditor.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2008 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2008 taxes were collected are:

	2007 Second Half Collections		2008 First Half Collections

NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In prior fiscal years, the District entered into leases for the acquisition of buildings, vehicles, equipment, and musical instruments. These lease agreements meet the criteria of a capital lease as defined by FASB Statement No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers the benefits and risks of ownership to the lessee.

Capital assets acquired by capital lease have been capitalized in the amount of \$4,709,477. This amount represents the present value of the minimum lease payments at the time of acquisition. Of this amount, \$3,976,043 is reported in buildings and improvements, \$612,328 in equipment and furniture, and \$121,106 in vehicles. For fiscal year 2008, depreciation expense on capital assets acquired by capital lease totaled \$97,853. At June 30, 2008, accumulated depreciation on capital assets acquired by capital lease equaled \$1,439,484, and net capital assets acquired by capital lease totaled \$3,269,993. A corresponding liability has been recorded on the government-wide financial statements.

Capital lease payments are reported as function/program expenditures in the budgetary statements. These payments have been reclassified and are reflected as debt service expenditures in the governmental fund financial statements. For fiscal year 2008, principal and interest payments in the general fund equaled \$267,061 and \$101,246, respectively.

The asbestos removal loans were issued during fiscal year 1993, mature in fiscal year 2013, and are interest-free. Principal payments on the asbestos removal loans are made out of the bond retirement debt service fund (a nonmajor governmental fund).

The energy conservation loans were issued during fiscal years 2005 and 2006, were retired early in fiscal year 2008, and carried an interest rate of 4.297%. Principal payments on the energy conservation loans were made out of the General fund.

See Note 9 for detailed information on the capital lease obligation.

Compensated absences will be paid out of the fund in which the employee is paid, which is primarily the general fund for the District.

C. Legal Debt Margins

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District.

The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations.

The effects of these debt limitations at June 30, 2008 are a legal voted debt margin of \$69,666,823, a legal unvoted debt margin of \$774,076, and a legal energy conservation debt margin of \$6,966,682.

NOTE 11 - RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2008, the District contracted with the Indiana Insurance Company for property and general liability insurance.

Professional liability is provided by the Indiana Insurance Company with a \$5,000,000 annual aggregate (includes \$3,000,000 umbrella coverage) / \$1,000,000 single occurrence limit and a \$5,000 deductible. Vehicles are covered by the Indiana Insurance Company and carry a \$1,000 (buses) and \$250 (other vehicles) deductible for comprehensive and a \$1,000 (buses) and \$500 (other vehicles) deductible for collision. Automobile liability has a \$1,000,000 combined single limit of liability.

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction in the amount of insurance coverage from last year.

NOTE 11 - RISK MANAGEMENT - (Continued)

B. Workers' Compensation

The District participates in the Bureau of Workers' Compensation Retrospective Rating Plan (the "Plan"). The Plan is an alternative rating plan that allows employers to initially pay the Bureau of Workers' Compensation significantly less premium by assuming the responsibility of paying all compensation and medical expenses for claims incurred in that policy year. The greater the portion of risk assumed by the employer, the greater the potential reduction in premiums. Employers who enroll into this program are responsible for their claims costs for a ten year period. This program is generally attractive for employers that pay premiums in excess of \$300,000 annually.

C. Employee Health Insurance

The District's health insurance is funded through a self-insurance program. The District maintains a self-insurance internal service fund to account for and finance its uninsured risks of loss in this program. One plan provides a comprehensive medical/surgical plan with deductibles ranging from \$200 for family coverage and \$100 for single coverage. The District's plan is a Preferred Provider Program through the Anthem network, which has co-pays ranging from \$20 to \$50 and includes a drug card. Deductibles of \$200 for family coverage and \$100 for single coverage apply for out-of-network services only. Maximum out of pocket expenses for employees is \$900 in addition to the deductibles applies to out-of-network services only. The District purchases stop loss coverage of \$125,000 per employee. The District and employees pay into the self-insurance internal service fund. The District's monthly portion for the majority of its employees is \$1,044 for family coverage and \$408 for single coverage. The employee's monthly portion for the majority of employees is \$98 for family coverage and \$31 for single coverage. The premiums are paid by the fund that pays the salary for the employees and is based on historical cost information.

Dental and vision coverage is also provided on self-insured basis through Administrative Service Consultants. Premiums for its coverage are \$76.77 monthly for family coverage and \$29.53 for single coverage. The District is responsible for payment of all claim amounts in excess of the employee payment percentages established in the plan document.

The claims payable liability of \$1,477,393 reported in the Employee Benefits Self Insurance fund at June 30, 2008 is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", and as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability be reported for unpaid claims costs, including estimates of costs relating to incurred but not reported claims. The claims liability is based on an estimate supplied by the District's third party administrator. Changes in the claims payable liability for the current and prior fiscal years are as follows:

<u>Fiscal Year</u>	<u>Balance at Beginning of Year</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>Balance at End of Year</u>
2008	\$ 1,304,550	\$ 6,116,985	\$ (5,944,142)	\$ 1,477,393
2007	1,330,647	5,703,376	(5,729,473)	1,304,550

Post employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 13. As such, no provisions are required by the District.

NOTE 12 - PENSION PLANS

A. School Employees Retirement System

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under *Forms and Publications*.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2008, 9.16 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2008, 2007, and 2006, were \$729,881, \$787,761, and \$771,315, respectively; 42.84 percent has been contributed for fiscal year 2008, and 100 percent for fiscal years 2007 and 2006.

B. State Teachers Retirement System of Ohio

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

NOTE 12 - PENSION PLANS - (Continued)

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For fiscal year 2008, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2008, 2007, and 2006, were \$3,405,244, \$3,435,930, and \$3,477,344, respectively; 81.83 percent has been contributed for fiscal year 2008, and 100 percent for fiscal years 2007 and 2006. Contributions to the DC and Combined Plans for fiscal year 2008 were \$44,795 made by the District and \$77,896 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2008, certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

NOTE 13 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Plan Description - The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2008, 4.18 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2008, this amount was \$35,800.

NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care for the fiscal years ended June 30, 2008, 2007, and 2006, were \$451,967, \$380,221, and \$390,256, respectively; 42.84 percent has been contributed for fiscal year 2008, and 100 percent for fiscal years 2007 and 2006.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2008, this actuarially required allocation was 0.66 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2008, 2007, and 2006, were \$52,590, \$53,568, and \$61,390, respectively; 42.84 percent has been contributed for fiscal year 2008, and 100 percent for fiscal years 2007 and 2006.

B. State Teachers Retirement System of Ohio

Plan Description - The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2008, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2008, 2007, and 2006, were \$261,942, \$264,302, and \$267,488, respectively; 81.83 percent has been contributed for fiscal year 2008, and 100 percent for fiscal years 2007 and 2006.

NOTE 14 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);

**FINDLAY CITY SCHOOL DISTRICT
HANCOCK COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE 14 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a reservation of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Investments are reported at fair value (GAAP basis) rather than cost (budget basis);
- (e) Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	<u>General fund</u>
Budget basis	\$ (1,096,891)
Net adjustment for revenue accruals	304,806
Net adjustment for expenditure accruals	161,224
Net adjustment for other financing sources/uses	(371,337)
Adjustment for encumbrances	<u>1,704,625</u>
GAAP basis	<u>\$ 702,427</u>

NOTE 15 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is a party to legal proceedings seeking damages or injunctive relief generally incidental to its operations and spending projects. The District management is of the opinion that disposition of the claim and legal proceedings will not have a material effect, if any, on the financial condition of the District.

NOTE 16 - STATUTORY RESERVES

The District is required by state law to set-aside certain general fund revenue amounts, as defined by Statute, into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2008, the reserve activity was as follows:

	<u>Instructional Materials</u>	<u>Capital Acquisition</u>
Set-aside balance as of June 30, 2007	\$ (3,574,647)	\$ -
Current year set-aside requirement	987,071	987,071
Current year qualifying expenditures	<u>(2,016,542)</u>	<u>(2,451,556)</u>
Total	<u>\$ (4,604,118)</u>	<u>\$ (1,464,485)</u>
Balance carried forward to FY2009	<u>\$ (4,604,118)</u>	<u>\$ -</u>

The District had qualifying expenditures during the year that reduced the instructional materials set-aside amount below zero. This negative amount can be used to reduce the instructional materials set-aside requirement in future years and therefore is presented as being carried forward to fiscal year 2009.

The District had qualifying expenditures during the year that reduced the capital acquisition set-aside amount below zero. This negative amount cannot be used to reduce the capital acquisition set-aside requirement in future years, and therefore is not presented as being carried forward to fiscal year 2009.

A schedule of the governmental funds restricted assets at June 30, 2008 is as follows:

Amount restricted for school bus purchases	<u>\$ 51,503</u>
Total	<u>\$ 51,503</u>

NOTE 17 - FINDLAY DIGITAL ACADEMY

The Findlay Digital Academy (the “Academy”) has been determined to be a discretely presented component unit of the District. The District’s management has determined that the Academy is significant. Therefore, the component unit has been included in the District’s basic financial statements. The Academy issues a publicly available, stand-alone financial report that includes basic financial statements and supplementary information. This report may be obtained by writing to Michael Barnhart, Treasurer, Findlay Digital Academy at 1219 W. Main Cross, Findlay, Ohio 45840.

A. Description of the Digital Academy

The Academy is a Conversion Community School established pursuant to Ohio Revised Code Chapter 3314, and sponsored by the District to serve ninth through twelfth grade students living in the District. The Academy’s mission is to enhance and facilitate student learning by combining state-of-the-art digital curriculum with access to local school resources to complement that instruction and prepare students to become lifelong learners and productive citizens.

NOTE 17 - FINDLAY DIGITAL ACADEMY - (Continued)

The Academy is an innovative program operated as a cooperative effort between the Academy's Board of Directors and the District. The Academy was approved for operation under a contract with the District commencing on April 1, 2004 and expiring on June 30, 2008. Another contract was signed in June 2008 to go through June 30, 2013. The Academy enrolled its first students in January 2005. The District is responsible for evaluating the performance of the Academy and has the authority to deny renewal of the contract at its expiration or terminate the contract prior to its expiration.

The Academy is governed by a seven-member Board of Directors. The Board is comprised of the District's Superintendent, the District's High School Principal, and one (1) other licensed administrator who is employed by the District. The Board also includes three (3) other persons who are neither officers nor employees of the Academy who serve as voting members. Those three may include a public educator or other public official representing a governmental entity that desires to further the establishment and operation of the Academy, one parent of a student enrolled in the Academy, and a representative from the Tri-Rivers Educational Computer Association (TRECA) who within one year following the Academy's incorporation may be replaced by a District administrator. The District's Treasurer serves as a nonvoting ex-officio member of the Board.

The Academy uses distance-learning technology to deliver instruction via computers to students, either in their homes or a group-learning environment such as a computer classroom at school. Although the Academy cannot exercise control over the home environments in which instruction will be received, it attempts to take reasonable steps to ensure compliance with health and safety standards deemed available to its students and within the Academy's control.

B. Summary of Significant Accounting Policies

The basic financial statements of the Academy have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Academy also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989 to its governmental and proprietary activities, provided they do not conflict with or contradict GASB pronouncements. The Academy's significant accounting policies are described below.

Basis of Presentation: The Academy's basic financial statements consist of a statement of net assets; a statement of revenue, expenses, and changes in net assets; and a statement of cash flows. Enterprise fund reporting focuses on the determination of the change in net assets, financial position and cash flows.

Measurement Focus: Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included on the statement of net assets. The statement of changes in net assets presents increases (i.e. revenues) and decreases (i.e. expenses) in net total assets. The statement of cash flows provides information about how the Academy finances and meets the cash flow needs of its enterprise activities.

Basis of Accounting: Basis of accounting determines when transactions are recorded in the financial records and reported in the basic financial statements. The Academy's basic financial statements are prepared using the accrual basis of accounting.

NOTE 17 - FINDLAY DIGITAL ACADEMY - (Continued)

Non-exchange transactions, in which the Academy receives value without directly giving equal value in return, include grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis.

Expenses are recognized at the time they are incurred.

Budgetary Process: Unlike other public schools located in the State of Ohio, community schools are not required to follow budgetary provisions set forth in the Ohio Revised Code Chapter 5705, unless specifically provided in the contract between the Academy and its sponsor. The contract between the Academy and the District does not prescribe a budgetary process for the Academy; therefore no budgetary information is presented in the basic financial statements.

Cash and Cash Equivalents: All monies received by the Academy are accounted for by the Academy's fiscal agent, the District. All cash received by the fiscal agent is maintained in separate accounts in the Academy's name. For purposes of the statement of cash flows and presentation on the statement of net assets, investments with original maturities of three months or less at the time they are purchased by the Academy are considered to be cash equivalents. The Academy had no investments during the fiscal year.

Capital Assets: Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market value as of the date received. The Academy maintains a capitalization threshold of one thousand dollars. The Academy does not possess any infrastructure.

Depreciation of furniture and equipment is computed using the straight-line method over an estimated useful life of five years.

Net Assets: Net assets represent the difference between assets and liabilities. Invested in Capital Assets consists of capital assets, net of accumulated depreciation. Net assets are reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Academy applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Operating Revenues and Expenses: Operating revenues are those revenues that are generated directly from the primary activities. For the Academy, these revenues are primarily foundation payments from the State. Operating expenses are necessary costs which are incurred to provide the goods or services that are the primary activity of the Academy. Revenues and expenses not meeting this definition are reported as non-operating.

Intergovernmental Revenues: The Academy currently participates in the State Foundation Program. Revenues received from this program are recognized as operating revenues in the accounting period in which all eligibility requirements are met.

NOTE 17 - FINDLAY DIGITAL ACADEMY - (Continued)

Federal and State grants are recognized as non-operating revenues in the accounting period in which all eligibility requirements have been met. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis.

The Academy participates in various programs through the Ohio Department of Education. These include the Federal Charter School Grant Program, Title VI-B, Title I, Title II-A, Title II-D, Title V and an EMIS subsidy grant.

Estimates: The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

C. Deposits and Investments

Deposits: At fiscal year end, the carrying amount of the Academy's deposits was \$3,131 and the bank balance was \$13,163. Of the bank balance, \$13,163 was covered by the Federal Deposit Insurance Corporation (Category 1).

Investments: At fiscal year end, the Academy had the following investments:

<u>Investment</u>	<u>Fair Value</u>	<u>Percent of Total</u>
STAR Ohio	\$ 248,518	55.37
FNMA	200,333	44.63
Total	<u>\$ 448,851</u>	<u>100.00</u>

The weighted maturity of the investment in STAR Ohio is one day and the weighted maturity of the investment in FNMA is 4.67 years.

Interest rate risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the investment policy, the Academy manages its exposure to interest rate risk and declines in fair values by limiting the weighted average maturity of its investment portfolio.

Credit risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. In accordance with the investment policy, the Academy manages its exposure to credit risk by limiting their investment to STAR Ohio and Government Sponsored Enterprises (GSE's). Investments in STAR Ohio were rated AAAM by Standard & Poor's. The investment in FNMA was rated AAA by Standard & Poor's.

Concentration of credit risk: Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. In accordance with the investment policy, the Academy allows investments in certificates of deposits or in financial institutions within the State of Ohio as designated by the Federal Reserve Board. The Academy has invested 55.37% in investments with no weighted maturity through STAR Ohio. All other investments can be sold on the secondary market if immediate cash flow is needed.

Custodial credit risk: Custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Academy can access \$500,000 of net equity protection from the Securities Investor Protection Corporation through Ridge Clearing, which is the custodian of our non-STAR Ohio investments. All of the Academy's investments are held in the name of the Academy.

D. Intergovernmental Receivables and Payables

There were no intergovernmental receivables at June 30, 2008. There was an intergovernmental payable of \$2,448 at June 30, 2008 for excess state foundation payments.

E. Capital Assets

Capital asset activity for the fiscal year ended June 30, 2008:

	Balance		Balance	
	<u>07/01/07</u>	<u>Additions</u>	<u>Deletions</u>	<u>06/30/08</u>
Furniture and Equipment	\$ 86,587	\$ -	\$ (3,413)	\$ 83,174
Less: Accumulated Depreciation	<u>(29,219)</u>	<u>(16,714)</u>	<u>878</u>	<u>(45,055)</u>
Capital Assets, Net	<u>\$ 57,368</u>	<u>\$ (16,714)</u>	<u>\$ (2,535)</u>	<u>\$ 38,119</u>

F. Risk Management

The Academy is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Academy is covered under the liability and property policies of the District.

Coverages are as follows:

General Liability:	
Per Occurrence	\$ 1,000,000
Aggregate	4,000,000
Personal and Advertising Injury	1,000,000
Property:	129,762,478

There have been no claims filed against or on behalf of the Academy.

G. Fiscal Agent and Payments to Sponsor

The Sponsorship Contract states that the District may direct its treasurer to serve as the Academy's fiscal officer. The treasurer performs the following functions for the Academy:

- A. Assumes responsibility for receipt, safekeeping and disbursement of all Academy funds;
- B. Directs and manages all financial accounting programs and systems;
- C. Completes and files all forms, reports, papers and other requirements as prescribed by the Auditor of State, Department of Education, or other State or local agencies.

In addition, the Sponsorship Contract states that the Academy shall secure the services of an Executive Director who shall be the chief operating officer of the Academy. This position is filled by the Secondary Curriculum Director of the District.

The District contracts out all employees to the Academy including the Executive Director, Treasurer, EMIS Coordinator, Academy Coordinator, and Teachers. Beginning in August 2008, the Executive Director will be contracted through the Hancock County ESC.

During the fiscal year ended June 30, 2008, the Academy incurred \$73,432 in expenses payable to the District for:

Salaries and benefits	\$ 53,497
Fiscal services	10,864
EMIS services	7,950
Other	<u>1,121</u>
Total	<u>\$ 73,432</u>

H. Contingencies

Grants: The Academy received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions as specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Academy. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Academy at June 30, 2008.

State Funding: The Ohio Department of Education reviews enrollment data and full time equivalency (FTE) calculations made by the schools. These reviews ensure the schools are reporting accurate student enrollment data to the State, upon which State Foundation Funding is calculated. For fiscal year 2008, the review was completed in October 2008. As a result of said review, the Academy's State Foundation Funding will be decreased by \$2,448 for fiscal year 2008.

NOTE 17 - FINDLAY DIGITAL ACADEMY - (Continued)

State School Funding Decision: On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school funding scheme that is thorough and efficient...". The Academy is currently unable to determine what effect, if any, this decision will have on its future state funding and its financial operations.

House Bill 79: In March 2007, the Ohio General Assembly enacted House Bill 79, which contained confusing language that implied that if a school employee is serving on the Academy's Board of Directors, that school employee's full-time job could be in jeopardy. As a result, the Academy made some changes to its Board of Directors based on advice from legal counsel. The General Assembly has indicated that was not the intent of the legislation and has indicated that corrective legislation would be introduced. As of October 31, 2008, no such corrective legislation has appeared.

I. Purchased Service Expenses

For the fiscal year ended June 30, 2008, purchased service expenses were payments for services rendered by various vendors, as follows:

Tri-Rivers Educational Computer Association (TRECA)	\$ 230,832
Sponsor, Management Fees and Expenses	88,474
Hancock County ESC	11,881
Western Buckeye ESC	6,666
Balestra, Harr & Scherer, CPAs	5,200
Other	<u>3,098</u>
Total	<u>\$ 346,151</u>

J. Related Party Transactions

The Academy's Board of Directors includes three members who are employees of the District and one member who is an employee of the Hancock County Educational Service Center, as contracted out by the District. However, that changed in fiscal year 2007 due to House Bill 79 (see Note 17.H. above). In addition, other employees of the District provide additional services to the Academy. Payments to the following related parties (other than travel reimbursement) were as follows:

Findlay City School District (Sponsor)	\$ 88,474
Jon Thomas (Employee of Sponsor)	<u>25</u>

K. Contract With TRECA

The Academy entered into a contract on June 30, 2007, for fiscal year 2008, with TRECA. Under the contract, the following terms were agreed upon:

- TRECA shall provide the Academy with instructional, administrative, staff training, and technical services sufficient to substantially implement the Academy's educational plan and the Academy's assessment and accountability plan.
- All personnel providing services to the Academy on behalf of TRECA under the agreement shall be employees of TRECA and TRECA shall be solely responsible for all payroll functions, including retirement system contributions and all other legal withholding and/or payroll taxes, with respect to such personnel. All shall possess any certification or licensure which may be required by law.
- The technical services provided by TRECA to the Academy shall include access to, and the use of, computer software, computer hardware, networking hardware, network services, and the services of technical support personnel necessary to implement the plan of operation.
- The Academy shall secure the services of an Executive Director, who shall be the chief operating officer of the Academy, with primary responsibility for day-to-day operation of the Academy.
- Curricular services provided by TRECA shall be limited to the basic standardized curriculum developed by TRECA. Basic services do not include special education and related services.
- In exchange for the services and support (including equipment) provided by TRECA, the Academy shall pay to TRECA \$3,750 per full-time student enrolled in the Academy for the 2007-2008 school year. Part-time students may be enrolled on such terms as agreed to by the parties.
- In the case of students enrolled in the Academy who are Disabled or Suspected Disabled, as defined in the Exhibit entitled "TRECA Enhancement Services and Special Education Obligations of the Academy and TRECA", the Academy shall additionally pay to TRECA the fees and costs described in Section II of such exhibit.

For fiscal year 2008, \$230,832 was paid to TRECA. \$9,500 was payable to TRECA at June 30, 2007. \$32,357 was payable to TRECA at June 30, 2008.

To obtain TRECA's audited June 30, 2008 financial statements, please contact Scott Armstrong, Treasurer, at scott@treca.org.

L. Tax Exempt Status

The Academy's legal counsel issued a tax opinion stating the Academy is not required to pay federal income tax or file federal tax returns because it qualifies as an integral part of the Findlay City Schools which is a political subdivision of the State of Ohio. The tax opinion also indicates that as a further protection, they structured the Academy's incorporation documents in such a way that, in the unlikely event the Internal Revenue Service ever reaches a contrary conclusion regarding the Academy's tax status, the Academy should qualify as a tax-exempt organization under either Section 501(c)(3) or 501(c)(4) of the Internal Revenue code, retroactive to the date of incorporation. Thus, the Academy should avoid liability for any taxes or penalties imposed by the Internal Revenue Code.
