

OGT SUMMER TESTING PROGRAM - 2009

The format for the session is 10 hours of class time (Monday, June 15 through Friday, June 19 for 2 hours each day per class) with the test the following week. Students are required to take the remediation classes before taking the test. The only exception is a student who has completed all the requirements for graduation and ONLY needs to pass the OGT to graduate. Actual testing day for each test subject is not yet determined but each will be given on a different day during the week of June 22, 2009.

There will be an organizational meeting at 9 a.m. On Monday, June 15. The meeting time for each class will be set at that meeting depending on needs of students.

If you have any questions on the OGT Summer program, please call Chris Renn at (419) 425-8226.
